Tidbit

Tomatoes are both a sweet and tart fruit that add a punch of flavor and color to any dish. They are most commonly seen in shades of red, but orange, yellow, green, pink and purple varieties exist too! Tomatoes are a great addition to salads and sandwiches; they are also the base for many soups and sauces.

Kid-Friendly Eating Tips

- Dice up a few tomatoes, and add ingredients such as, garlic, onions, peppers, cilantro, basil or oregano and you have a perfect salsa dip for tortilla chips.
- Add fresh tomato slices to any sandwich.
- Tomatoes are a perfect addition to a green salad. They can become their own salad if you simply slice them and add balsamic vinegar, olive oil, salt and pepper.
- Cook down tomatoes for a fresh pasta sauce.

Cooking Tip

The easiest way to remove the skins from tomatoes is to blanch them in boiling water for 15-30 seconds, immediately place them in ice water, then use a paring knife to remove the skin.

Storage Tips

- Ideally, store them at room temperature, out of direct sunlight.
- If overripe, they can be put in the refrigerator for 1-2 days; to acquire maximum flavor, be sure to let them reach room temperature again before eating.
- **To freeze:** Rinse, hull and place in a labeled and dated freezer-grade bag. Make sure to leave room for expansion that occurs during freezing and remove all excess air. Frozen tomatoes will keep for 8-12 months.

RECIPES

Tomato Salsa

Yield: 4-6 servings

Ingredients:

- 1½ lbs fresh tomatoes (approximately 3 medium tomatoes)
- 2 cloves garlic
- ½ small onion
- 1½ Tbsp. cilantro
- 1 Tbsp. lime juice
- 1 Tbsp. olive oil
- ½ tsp. salt

Directions:

1. Mince the fresh tomatoes, garlic, onion and cilantro. Some children suggested puréeing a portion of the tomatoes to give the salsa a smoother texture, while others enjoyed it chunky style—we'll leave it to you to decide.
2. Mix all ingredients in a bowl.
3. Let all ingredients stand for at least 20 minutes or up to one day, in the fridge, before serving.
